Products Using Red Sandalwood

- It is being used in perfumes, fragrance products, making sculptures & furniture, skin care products, spiritual products, decorative items, musical instruments, valuable gifts, and others...
- It is under research in various industries like healthcare for cancer treatment, space & sustainable energy production for its coolantz properties, etc...

Cosmetic Benefits

- Using it every day gives a youthful look.
- It helps in treating acne, wrinkles, scars, dark spots, pigmentation.
- It absorbs oil from the skin, removes toxins and pollutants, and makes it look healthy.

Health benefits

- Applying it on burns helps them heal faster.
- Reduces symptoms of diabetes, lowers bad cholesterol (LDL) and triglyceride levels, relieves headaches and inflammation caused by ulcers.
- It relieves inflammation caused by edema, and inhaling the steam from its oil provides relief from cold & cough.

Let's Walk Together & Grow Together

RUDRAA

Sandal Projects Pvt Ltd

GREEN TO GOLD

Indirect societal benefits of your investment:

- Restoring the former glory of farmers—upholding the concept that **"the farmer is king"**—and striving to transform every farmer into a millionaire.
- Conserving biodiversity and the environment through organic cultivation of land and trees.
- Generating new employment opportunities and fostering industries in rural areas through plantation and maintenance activities.

According to Andhra Pradesh (G.O.):

- **Grade A** – 25–30 years old; excellent shape, wonderful aroma, deep red color, and superior quality. Valued at ₹65 lakhs per tonne.
- **Grade B** – 15–20 years old; deep red color, good quality, with minor cracks and slight variations in shape. Valued at ₹36 lakhs per tonne.
- **Grade C** – 12–15 years old; red color, with visible cracks and variations in shape. Valued at ₹20 lakhs per tonne.

**"Do trees bear money?" was the question of the past;
"Yes, they do," is the reality of today.**
